Morrisville, NC — May 4, 2010 — SlickEdit Inc., provider of the most versatile code editors available, announces the release of SlickEdit 2010. SlickEdit 2010 introduces multiple new powerful and time saving features, providing developers with the coding tools they need to meet ever more aggressive deadlines.

SlickEdit 2010 is the premier cross-platform, multi-language code editor that gives programmers the ability to code in over 40 languages on 7 platforms including Windows®, Linux, UNIX, and Mac OS X®. This latest version builds on the company's 22 years history of enabling developers and development teams to create, navigate, edit, modify, build, and debug code faster and more accurately.

SlickEdit 2010 delivers a wide range of powerful new features including:

- File Tabs Enhancements
- WinDbg Support
- Set Options for All Languages
- Microsoft Visual Studio 2010 Support
- Subword Navigation
- Auto-Close and Overtype
- Outline View for XML
- Subversion History
- Subversion File Status
- Eclipse Emulation
- Doc Comment Updates
- Google Web Toolkit Support
- Notifications
- Product Improvement Program
