

Morrisville, NC — December 8, 2010 — [SlickEdit, Inc.](#) ., provider of the most versatile code editors available, announces the release of SlickEdit Core v3.6.1 for Eclipse. This version introduces powerful time-saving tools that help developers meet increasingly aggressive deadlines.

[SlickEdit Core](#) is a subscription plugin for Eclipse that brings SlickEdit's rich history of excellence to the Eclipse framework. SlickEdit Core consists of the SlickEdit editor, 7 additional views, and the DIFFzilla[®] differencing engine. The plugin supports over 40 languages and provides emulations for 14 popular editors, including Brief and Vim.

“SlickEdit Core v3.6.1 includes many new features found in SlickEdit 2010, plus enhancements unique to SlickEdit Core, such as improved split window editing and contextual (F1) help on any SlickEdit dialog,” said Ryan Huff, Project Lead. “SlickEdit Core is a great plugin for any programmer working within the Eclipse environment who is looking to have one of the most powerful and flexible editors available.”

New features available in SlickEdit Core v3.6.1 include:

- Improved Split Window Editing
- F1/Contextual Help
- Set Options for All Languages
- Notification Subword Navigation
- Auto Close and Overtyping
- Doc Comment Updates
- Outline View for XML

Visit the [SlickEdit Core product page](#) for a complete list of features and enhancements.

SlickEdit Core is sold for \$99 as an annual subscription license. Other products available from SlickEdit are SlickEdit[®] 2010 and SlickEdit Tools for Microsoft[®] Visual Studio[®]. Visit the [SlickEdit website](#) for free trial downloads and more information about SlickEdit Inc.
